[recipient name was inserted here],

The Federal Communications Commission is considering taking actions that will restrict consumer choice by deregulating local phone service.

Millions of Americans like me could have their phone service threatened if the local phone companies aren't required to allow competitors access to the market. I'm also concerned about the Commission's move to relieve all broadband Internet access facilities of open access obligations.

Both of these key decisions will limit my choices as a consumer by lessening competition, diminishing cost savings and threatening consumer protections. As a constituent, I urge you to support competition and open access for local phone service.

Sincerely,

Dawn C Budzina

# CORNERSTONE

TELEPHONE COMPANY

Feh. 6,2003

Dear Commissioner Jonathan S. Adelstein,

I ask your support for the continued availability of the "UNE-Platform."

My company, Cornerstone Telephone Company, offers local telephone service in New York State. The company has achieved increasing success largely because it utilizes the combination of "unbundled network elements" – the UNE-Platform - to serve customers. It is absolutely critical that we have continued access to the UNE-Platform to remain competitive.

Unfortunately, the Regional Bell Operating Companies have launched a full-scale attack on the UNE-Platform, realizing it is a major threat to their continued market dominance. Their strategy is to impose certain restrictions on individual network elements that would destroy the competitive value of the UNE-Platform. If the RBOCs succeed, it will all but end any chance for consumers to enjoy the benefits of meaningful competition in local phone service.

Please oppose any effort that will limit the availability of the UNE-Platform. The UNE-Platform should be firmly and permanently established as a viable service option for competitive telecom carriers.

Thank you very much for your time and attention to this important matter.

Sincerely,

Robert G. Deeh  
Agent Manager  
Cornerstone Telephone Company

Subject: UNE-P

Dear Commissioner:

I ask your support for the continued availability of the UNE-Platform

I am a consumer who **uses** Talk America, which offers local telephone service in New Jersey. The company has achieved increasing success largely because it utilizes the combination of unbundled network elements the UNE-Platform - to serve customers. It is absolutely critical that competitive local carriers have continued access to the UNE-Platform to remain competitive, and benefit consumers.

Unfortunately, the Regional Bell Operating Companies have launched a full-scale attack on the UNE-Platform, realizing it is a major threat to their continued market dominance. Their strategy is to impose certain restrictions on individual network elements that would destroy the competitive value of the UNE-Platform. If the RBOCs succeed, it will all but end any chance for consumers to enjoy the benefits of meaningful competition in local phone service.

Please oppose any effort that will limit the availability of the UNE-Platform. The UNE-Platform should be firmly and permanently established as a viable service option for competitive telecom carriers.

Thank you very much for your time and attention to this important matter.

Sincerely,

Clayton G. Munson

**Date:** Wed, Feb 5, 2003 10:37 AM  
**Subject:** unedited rap station in Patchogue, NY

This is the second time I am reporting this station. I think it's some kind of underground station but the name is Blazin Rap Radio 100.1 phone #631-475-8246.

This radio station plays rap music that is unedited and crude to say the least. Rap music is vulgar as it is with editing and this does not edit the songs at all. I don't appreciate that my 14 year old daughter and her friends can listen to this at whim and hear the explicit details of sex. When is this station going to **be** shut down??????

I would appreciate an acknowledgment regarding this. Thank you

P. Becker
